1. At least 10 designs  
of this type radar - target  
reflectors. This includes 2-6-3  
new designs.
2. Used on Wx balloons
3. Also used by U.S. Army  
for and finding directions for  
~~artillery~~ artillery fire purposes.
4. Also used on radar tests  
and evaluations regarding types  
of reflective surfaces, and used  
as simulated targets for radar  
detection and tracking purposes.
5. Also used as ~~as a~~ ~~as a~~ ~~as a~~  
~~reflectors~~ ~~various designs of corner~~  
ECM and decoy devices  
Permanent, analyzed and committed  
upon by.

Mr. ~~XXXXXXXXXX~~

REMARKS 1. Here is a letter of a "UFO" found by subject Air Division - asking both HQS USAF, Director of Intelligence and this Center to "identify" 2. Object is obviously a parachute (cover reflector) - which should be known to air defense people. 3. We have no instance where a a balloon + parachute came down a few hundred yards from the release point, and we were asked to investigate the "strange" object. Thanks for your help, Sir FROM NAME OR TITLE Capt. Gregory ORGANIZATION AND LOCATION AFSCN-854 DATE TELEPHONE

Sgt. Bohan,

at 10:00 AM - report  
to Maj. Walker, Bldg  
72, Operations Office,  
6th Weather Group

- 1 - Show him photos - and  
ask him to identify it.  
(It's a ramiscade reflector)  
but we want it officially.
- 2 - Ask him approximately how  
many paraballs or WX balloons  
sent up use these type  
of reflectors.

(We are then told ADC -  
20% (35%) ok - and to  
have their people to identify  
them)

3 Also, ask if this type of equipment  
is released by Weather detachments  
under the various AIR DIVISIONS?

29 NOV 1957

SUBJECT: Transmittal of UFOB Photograph

TO: Director of Intelligence  
United States Air Force  
Washington 25, D.C.

Transmitted herewith is a photograph of the metal foil face of the UFOB reported in this headquarter's message DI 18466, dated 27 Nov 57. Other photographs of the device failed to reproduce so a sketch of the reverse side is also inclosed.
